

Southern Cross® Zip / TPU / Scuff / GraphTec™ | 319641

The Southern Cross® GraphTEC™ is a 150mm men's lace-up safety boot with an industrial grade side zip and GraphTEC™ enhanced scuff cap and outsole.

Upper Materials

Full-grain (Black) or nubuck (Wheat) cowhide water-resistant leather upper with double stitching in nylon thread. Features a scalloped, padded collar and tongue, and non-corrosive lacing. Including a GraphTEC™ scuff cap and outsole enhanced by PureGRAPH® graphene. The GraphTEC™ range is designed, developed and made in Australia.

Toe Cap

200J Steel Toe Cap

Lining Materials

This boot is lined with Baltico®, a soft, non-abrasive, hydrophobic material that wicks perspiration away from the foot, keeping the skin cool and dry.

Full Innersole

A full-length footbed is inserted into the footwear to provide additional support and comfort. This footbed is made from soft polyurethane, which will retain its shape and thickness throughout the life of the boot.

Insole

Heavy-duty, flexible, antibacterial, non-woven insole.

Midsole

Directly moulded polyurethane midsole for greater shock absorption.

Outsole

With the addition of PureGRAPH® Graphene, Steel Blue has enhanced the outsole and scuff caps of our Southern Cross® GraphTEC™ boots to provide world leading durability and abrasion resistance which has been independently tested, with results showing an increase of over 200% in abrasion resistance for superior durability and additional strength. The antistatic Thermoplastic Polyurethane (TPU) outsole is heat resistant to 130°C.

Trisole® Comfort Technology

The Steel Blue soling system is a patented three-density soling system that provides a high level of comfort, shock absorbency, and energy return. The system uses PORON® as energy-absorbing pads placed under the pressure points of the foot to deliver superior comfort and offers shock absorbency comparable to that of sports footwear.
