

Jarrah

Nitrile | 322313

The Jarrah is a 190mm men's high-leg safety boot.

Upper Materials

Full-grain (black) cowhide water-resistant and chemical resistant leather upper with durable TecTuff® material and stitched with Kevlar® thread. Features a padded collar and bellows tongue, and non-corrosive lacing.

Toe Cap

200J Steel Toe Cap

Lining Materials

This boot is lined with Baltico®, a soft, non-abrasive, hydrophobic material that wicks perspiration away from the foot, keeping the skin cool and dry.

Full Innersole

A full-length footbed is inserted into the footwear to provide additional support and comfort. This footbed is made from soft polyurethane, which will retain its shape and thickness throughout the life of the boot.

Insole

Heavy-duty, flexible, antibacterial, non-woven insole.

Midsole

Directly moulded polyurethane midsole for greater shock absorption.

Outsole

The Anti-static Nitrile Outsole offers superior resistance to abrasion and heat resistance to 300°C.

Trisole® Comfort Technology

The Steel Blue soling system is a patented three-density soling system that provides a high level of comfort, shock absorbency, and energy return. The system uses PORON® as energy-absorbing pads placed under the pressure points of the foot to deliver superior comfort and offers shock absorbency comparable to that of sports footwear.
