

Argyle®

Ladies / Zip / Nitrile / EH | 822714

The Argyle® Ladies Zip Nitrile is a 140mm women's lace-up ankle safety boot with EH properties and industrial grade side zip.

Upper Materials

Full-grain (black) cowhide water-resistant and chemical resistant leather upper with double stitching in nylon thread. Features a padded collar and tongue, non-corrosive lacing and a rear zip gusset with clearing outlet.

Toe Cap

200J Steel Toe Cap

Lining Materials

This boot is lined with Baltico®, a soft, non-abrasive, hydrophobic material that wicks perspiration away from the foot, keeping the skin cool and dry.

Full Innersole

A full-length footbed is inserted into the footwear to provide additional support and comfort. This footbed is made from soft polyurethane, which will retain its shape and thickness throughout the life of the boot.

Insole

Heavy-duty, flexible, antibacterial, non-woven insole.

Midsole

Directly moulded polyurethane midsole for greater shock absorption.

Outsole

The EH Nitrile Outsole offers superior resistance to abrasion and heat resistance to 300°C.

Trisole® Comfort Technology

The Steel Blue soling system is a patented three-density soling system that provides a high level of comfort, shock absorbency, and energy return. The system uses PORON® as energy-absorbing pads placed under the pressure points of the foot to deliver superior comfort and offers shock absorbency comparable to that of sports footwear.

EH Series

Electric Shock Resistant: 18,000 volts at 60 Hz for 1 minute in dry conditions, with a leakage current of less than 1 milliamperere. Meets the requirements of the American Standard ASTM F2413 Clause 5.6 - EH. Warning: Electrical shock resistance deteriorates rapidly in wet environments and with wear.

EH Series footwear is intended for use as secondary protective personal equipment. It should be used in conjunction with primary protective equipment in areas and environments where there is a need to reduce the risk of electric shock due to accidental contact with live electric wires.
